MTNLTRUSTLINE under this Agreement offers three distinct classes ("Classes") of Certificates, Classes 1, 2, and 3. Each class, of Certificates provides specific functionality and security features and corresponds to a specific level of trust. You are responsible for choosing which Class of Certificate You need. The following subsections state the appropriate uses and authentication procedures for each Class of Certificate. CLASS 3 CERTIFICATES.

Class 3 Certificates are issued to Individuals, Organizations, Servers, Devices, and Administrators for CAs and RAs.

The validation procedures for Class 3 Certificates issued to Individuals are based on the personal (physical) presence of the Subscriber before a MTNLTRUSTLINE authorized person that confirms the identity of the Subscriber using a well-recognized form of government issued identification and one other identification credential.

The validation procedures for Class 3 Certificates issued to Organizations are based on a confirmation that the Subscriber Organization does in fact exist, that the organization has authorized the Certificate Application, and that the person submitting the Certificate Application on behalf of the Subscriber was authorized to do so.

Class 3 Individual Certificates are appropriate for Digital Signatures, encryption, and access control in transactions requiring a high assurance about the Subscriber's identity.
